

Software Engineering Track (SET 2016)

SET IN CibSE

CibSE is the main conference on Software Engineering in Iberoamerica. This conference aims to promote the research and innovation in the iberoamerican area, both in academy and industry. For this aim, CibSE offers a forum to discuss innovation works on the software development. This year, the 19th edition of the conference is held in Quito (Ecuador).

The Software Engineering Track 2016 (SET 2016) is a specialized forum to gather all the discussion regarding the Software Engineering context. Any new contribution regarding how to build software from an engineering perspective can apply to this conference track. All contributions will be peer reviewed. More information about SET 2016 can be found in <http://cibse.espe.edu.ec>

TOPICS

Topics of interest include, but are not limited to, the following:

- ✓ Languages, methods, processes, and tool
- ✓ Software Processes: Modeling and Management
- ✓ Reverse engineering and software system modernization
- ✓ Software evolution and maintenance
- ✓ Model-driven engineering Models@run.time
- ✓ Proof, verification, and validation
- ✓ Quality, measurement, and assessment of products and processes
- ✓ Automatic software generation
- ✓ Formal methods applied to software engineering
- ✓ Integration with human-computer interaction
- ✓ Software product families and variability
- ✓ Software reuse
- ✓ Ontology applied to software engineering
- ✓ Software engineering for Peer-to-peer (P2P) systems
- ✓ Software and service-oriented architectures
- ✓ Search-based software engineering
- ✓ Web engineering and Web services
- ✓ Software Engineering for Self-Adaptive and Autonomous Systems

SUBMISSIONS

Authors are invited to submit **Papers in English, Portuguese, and Spanish** (max. 14 pages) as per the [LNCS style](#), and submitted via the [EasyChair system](#).

These submissions may be accepted for presentation as long papers, short papers, or posters, whose final quality will be supervised by the program committee. Acceptance will be based on originality, contribution to the area, quality of the paper, and ability to generate discussion. All the accepted papers will be published by the organization in a book with ISBN number. Additionally, papers will be indexed by DBLP. The best paper will receive an award. We are working to publish the best papers in an international journal special issue.
