CALL FOR PAPERS

WER 2016

19th Workshop on Requirements Engineering (WER 2016)

WER at CibSE

CibSE (formerly IDEAS) is the leading research forum on Software Engineering in Ibero-America. The main objective of this conference is to promote high-quality scientific research in Ibero-American countries, supporting the researchers in this community in publishing and discussing their work, and also fostering collaboration and cross-fertilization among research initiatives. Besides, the conference encourage collaboration among research initiatives, teachers, students and software industry. Building over the successful experience of the 18 previous editions, CibSE 2016 will be held in Quito, Ecuador.

WER 2016 is the nineteen edition of the Workshop on Requirements Engineering. The workshop started as a meeting of the Ibero-American requirements engineering community, but over the years has attracted attention from researchers from other parts of the world as well. WER 2016 will be held in conjunction with CibSE 2016. All the contributions will be reviewed by at least three members of the program committee.

More information about WER 2016 can be found at: http://cibse.espe.edu.ec/?q=en/WER_en
